PROFESSIONAL SUMMARY

Driven by an investigative mindset, I am passionate about understanding the core mechanics of Cybersecurity. By actively seeking opportunities to apply theoretical concepts to real-world scenarios. I am also dedicated to pursuing Data Analytics, with a focus on transforming complex, "messy" datasets into strategic visualizations. Leveraging my Business background, I excel at bridging the gap between technical complexity and stakeholder needs to deliver clear, actionable organizational value.

EDUCATION

Singapore Management University

Aug 2024 – May 2028

Bachelor of Science (Information Systems)

- Relevant Coursework: Data Management, Interaction Design Prototyping, Foundation in Cybersecurity, Algorithm & Programming, Web Application Development, Enterprise Solutions Development

Temasek Polytechnic

2021 - 2024

Diploma in Business

- Complete modules in E-commerce and Digital Marketing, Business Economics, Business Statistics, Workplace Communication and Enterprise Resource Management.

PROJECTS

Data Analyst (Project-Based) | HungryHub

- Collaborating with a real-world client to design a customer retention strategy by cleaning large-scale data.
- Performed end-to-end data engineering, including cleaning complex datasets and conducting exploratory data analysis (EDA)
- Designed interactive dashboards and high-fidelity visualizations in Power BI, enabling the client to clearly identify high-value customer segments.
- Technology used: SQL, Pandas, Dbeaver, Python, PowerBI, Google Analytics API, Anaconda

Questpass – Fair access presale platform to combat against ticket scalping

- Developed a presale platform where fans can earn access through engagement-based quests (listening verification, trivia, mini-games), ensuring genuine fans get presale codes and artists build loyalty.
- Achieved Higher Distinction for the project during coursework.
- Technology used: Vue.js, Vue Router, Pinia, Bootstrap 5, Firebase (Auth, Firestore, Cloud Functions), Node.js, Spotify API, Gemini API, Jambase API, Google Maps API, EmailJS, Deezer API.

WORK EXPERIENCE

Digital Marketing & Communications Intern

Mar 2023 – Jul 2023

- Analyzed campaign performance metrics, utilizing data to evaluate effectiveness and provide actionable insights for future marketing optimizations.
- Executed multi-channel marketing campaigns, gaining hands-on experience in SEO, content marketing, and paid advertising to drive brand awareness.
- Conducted deep-market research on target audiences and competitor strategies to inform the development of data-driven campaign tactics.
- Partnered with the Competitions Team to plan and execute high-stakes events, including the FIRST LEGO League Competition.

Aburi-En, Service Staff

Jan 2021 – Mar 2021

- Worked under pressure from working during peak hours.
- Enhanced my communication and hospitality skills
- Developed promoting skills when promoting new items and products to customers.

SKILLS

Technical Skills
